

To Whom It May Concern:

The OAG is hereby notified pursuant to Annotated Code of Maryland, Commercial Law Article, Section 14-3504, known as the Personal Information Protection Act ("PIPA"), that certain consumers may have been affected by a compromise of our electronic mail system that occurred in January, 2019. The potential compromise of those consumers' personal information was just discovered by our firm on August 2, 2019.

Although we have made and continue to make significant investments in technology and security, on August 2, we became aware that we were the victim of an unauthorized and unlawful access to our incoming electronic mail in the month of January, 2019. After thorough investigation it was been determined that the name, address, date of birth, and driver's license number with physical description information of 5 separate consumers may have been subject to unauthorized access. No credit card information or financial information was involved. At this time our firm, Moore, Carney, Ryan & Lattanzi, L.L.C. is not aware of any fraud associated with this incident. The threat was isolated to only to a single email account at our firm for a limited period of time.

Upon learning of the unauthorized access, and consistent with our long-standing security procedures, our firm took action, and launched an investigation of the breach and updated security to our electronic mail application to address the potential threat, the results of which were made known to us on August 2, 2019. As an added precaution, we have arranged to have Experian provide these 5 consumers with 1 year of identity repair and restoration at no cost to the consumer. The Experian IdentityWorksSM Premium service will start on the date we enroll the consumer with his or her permission, and the consumer may use it at any time during the ensuing year. The Experian IdentityWorksSM Premium service will be available to the consumers and if a problem arises, the consumer may simply call and a dedicated investigator will help recover financial losses, restore his or her credit and make sure the consumer's identity is returned to its proper condition.

Notices as required by PIPA are being sent this afternoon to those 5 consumers, copies of which are attached for your records.

Please notify me immediately if further action is required by our firm.

Sincerely,

Lisa Eisemann
